

**APPLICATION FOR PERMISSION TO CHANGE POINT OF DIVERSION, MANNER
OF USE AND PLACE OF USE OF THE PUBLIC WATERS OF THE STATE OF
NEVADA HERETOFORE APPROPRIATED**

Date of filing in State Engineer's Office SEP 26 2003

Returned to applicant for correction _____

Corrected application filed _____

Map filed OCT 24 1994 under 60576

The applicant **Gardnerville Town Water Company, Inc.** hereby make application for permission to change the **Point of Diversion of a Portion** of water heretofore appropriated under **Permit 60576 (Well No. 1)**

1. The source of water is **An Underground Source**
2. The amount of water to be changed **1.105 CFS Not To Exceed 800 Acre-Feet Per Year**
3. The water to be used for **Municipal Purposes (No Changes)**
4. The water heretofore permitted for **Municipal Purposes**
5. The water is to be diverted at the following point **within the SE¼ NE¼ of Section 4, T12N, R20E, MDB&M, or at a point from which the NE Corner of said Section 4 bears North 01°9'10" East a distance of 1841 feet (Well No. 6)**
6. The existing permitted point of diversion is located within **the NW¼ NW¼ of Section 4, T12N, R20E, MDB&M or at a point from which the NE Corner of said Section 4 bears N 86°15' E, 3946 Feet (Well No. 1)**
7. Proposed place of use **No Change**
8. Existing place of use **See Attachment**
9. Use will be from **January 1 to December 31** of each year.
10. Use was permitted from **January 1 to December 31** of each year.
11. Description of proposed works **300 foot deep well with a 16 inch casing and a 150 HP U.S. Electric motor, totalizing meter, 2 pressure tanks and 2 ground level storage tanks**
12. Estimated cost of works **At least \$100,000 for well, pump and motor and pressure tanks**
13. Estimated time required to construct works **Completed – 16 inch cased well 300 feet deep – Well log on file**
14. Estimated time required to complete the application of water to beneficial use **10 to 20 years depending on the rate of growth within the company's service area**
15. Remarks: **The purpose for filing this application is to put a portion of the water company's oldest priority water right into a well which will be used in the future to furnish water for additional growth. Please use the maps on file under Permit 60576 to show the place of use and the existing and proposed points of diversion.**

Protested _____

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion of a portion of the waters of an underground source as heretofore granted under Permit 60576 is issued subject to the terms and conditions imposed in said Permit 60576 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The permittee shall report to the State Engineer on a quarterly basis the effect of pumping the well under this permit on other previously existing wells that are located within 2,500 feet of the well under this permit.

Any pumping of water under this permit may be limited or prohibited to prevent any unreasonable adverse effects on an existing domestic well located within 2,500 feet of the well under this permit, unless the holder of this permit and the owner of the domestic well have agreed to alternative measures that mitigate adverse effects.

The total combined duty of water under Gardnerville Town Water Company's Permits 60576; 60607; 60608; 60609; 60611, Certificate 15122; 60612; 60613, Certificate 15123; 60614, Certificate 15395; 60615, Certificate 15124; 64626; 64627; 65007; 70338; 70339 and 70440 shall not exceed 2018.378 million gallons annually.

This permit is subject to the "Memorandum of Understanding Regarding Water Service" dated August 25, 1994, between Gardnerville Town Water Company and The Town of Minden.

The issuance of this permit in no way allows water service within the place of use of an existing purveyor without the written consent of the water purveyor.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

(CONTINUED ON PAGE 3)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 1.105 cubic feet per second, **but not to exceed 260.681 million gallons annually.**

Work must be prosecuted with reasonable diligence and be completed on or before:

N/A

Proof of completion of work shall be filed on or before:

N/A

Water must be placed to beneficial use on or before:

September 20, 2014

Proof of the application of water to beneficial use shall be filed on or before:

October 20, 2014

Map in support of proof of beneficial use shall be filed on or before:
